'JOCK'S WAGGIN' TONGUE

Vol. 4 Thur. JULY 18 No. 28

Jock McIntyre, Editor

Crop report—There have been good showers all over the district in the past week and everything is tops again, no hail yet.

Folks! Geo. Depue is anxious to supply your hail insurance needs with Alta. Hail Board Insurance. There is no better or cheaper insurance being sold in this district, and \$5.00 cash gives you protection.

Friday, July 19th, does that mean anything to you? Well folks it's Champion's 30th birthday and may we say that it strikes us that Champion and district is a mighty good place to live, as there are so many fine people here who call it home. What do you think about it?

See and hear the new 1941 Philco battery radio, it's a knock out, quality radio reception at such a low price is almost unbelievable.

Our greetings and best wishes to Jack and Mrs. Hopkins in their new venture.

Do you like to play bingo? Sure you do, well we will furnish the prizes, and say listen they are real prizes too. Come in and let us tell you about it.

Buy yourself a war tax stamp at our store daily and make it a habit to serve by saving.

Ladies you should see the beautiful new ivory and black S. & E. quality enamelware that has just arrived at our store, and listen, we will furnish the prizes if you like to play bingo with us too.

Don't forget the field day at the Experimental farm at Lethbridge on Friday the 19th. Take a lunch and spend the day, free coffee is provided.

Let's not give the flies a chance at all, for their destruction we have poison in pint tins and fly swatters that never miss, as well as spray guns.

Wm. Penn and North Star oils and greases, "Still the Best."

A New Service For Enlisted Men

The Chronicle is inaugurating a service which it believes will be helpful to the community and to the comfort of the soldiers who have enlisted for service in Canada's war effort.

The publisher of The Chronicle last year made the offer to send the paper free of charge to all soldiers who enlisted. This was accepted by many but in addition or in the same connection this paper would like to obtain the following information about the defenders of freedom.

We ask that next of kin of enlisted men fill out the following coupon and mail or bring it to this office.

Name:

Rank:

No.:

Address:

When enlisted:

Date of birth:

Education, what school attended:

Hobby or sport:

Next kin:

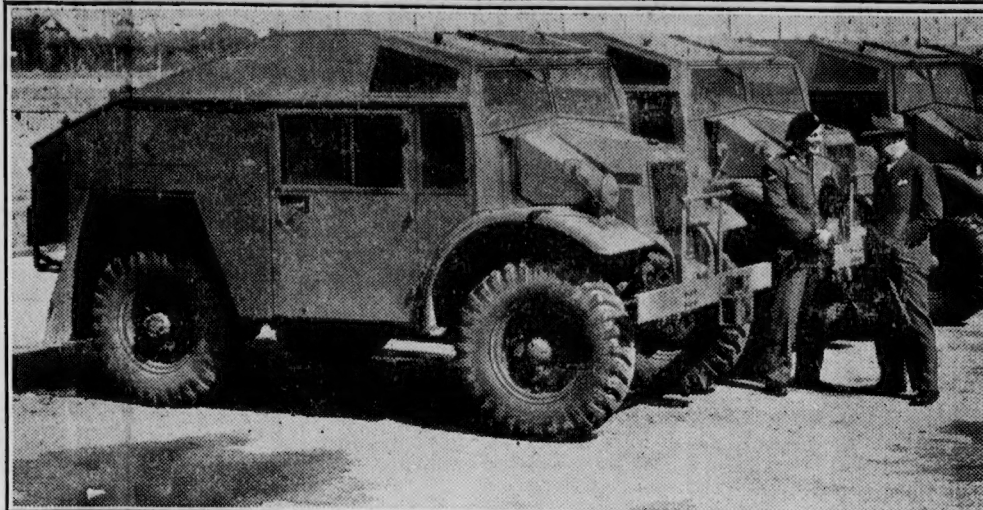

This record will be kept by The Chronicle and made available to service clubs wishing to keep in touch with their local boys. The paper will also be sent free to him.

Travers Man Found Dead

City police cleared up the mystery surrounding the death of William Dunlop, Travers farmer, found in a dying condition in a Calgary rooming house Friday night, where he had stayed since July 8.

Dunlop, police say, died from a severely fractured skull, suffered when he fell down the basement steps of the rooming house.

Canada to Supply Army with Universal Carriers

UNIVERSAL machine gun carriers will soon be added to the list of army vehicles made in Canada for the fighting forces at home and overseas. These are equipped with caterpillar treads and are very manoeuvrable and speedy. They are armoured against small arms fire and will carry three Bren guns, or can be used to carry ammunition, wireless sets and other necessary equipment. They will be produced in the Windsor plant of Ford Motor Company of Canada, Limited, which has been selected as the most suitable for the production of this vehicle. In the lower photograph, Mr. Wallace R. Campbell, president of the Canadian Ford organization, is shown with Lieut.-Col. D. C. Warnica, officer commanding the Essex Tank Battalion, Windsor, inspecting one of the Universal carriers. Other army vehicles now made in the Ford plant in

Windsor include the powerful four-wheel drive gun tractor pictured above. These and other types of military vehicles are rolling off the assembly line of the Canadian Ford plant which is supplying nearly 10,000 units to the Canadian army and another

25,000 units for military purposes to other Empire governments. The plant is now being expanded by a \$700,000 addition to provide facilities for building Universal carriers and to increase production of other types of military vehicles.

Vulcan Advocate Wins Award

Our congratulations go to The Vulcan Advocate and to Bob Munro who in the recent Dominion wide Weekly Newspaper competition won the second place award for his front page.

Aliens Must Turn In Arms

The Defence of Canada regulations have been amended to read "That all aliens must turn in to the Royal Canadian Mounted Police, all firearm and ammunition. Alien means any person who is not a British subject or a naturalized British subject."

All persons residing in the district who are not British subjects, are requested to get in touch immediately with the local Royal Canadian Mounted Police.

Ice Cream Social To buy Ambulance

The Women's Institute sponsored an Ice Cream Social and tea at the home of Mr. and Mrs. Martin Clever on Saturday afternoon and evening. Reports are that it was well attended by Champion and district. The proceeds were to go to the fund being raised to help buy an ambulance. The sum of \$26.00 was realized from the ladies efforts.

Wedding Huntrods—Foster

A pretty wedding was quietly solemnized in the Mause of the United Church here on Sunday, July 14th when Joseph Huntrods of Taber and Norma Jean Foster of Travers were united in marriage. Reverend Peter Dawson officiated.

After the ceremony the happy couple departed for their honeymoon in the northern parts of Alberta.

Your Summer Holiday

Soon the hot season will be here and people will be casting their thoughts in the direction of the holiday resorts, the lakes and the wilds. While holidays are important it is even of more importance that a holiday should improve one's health and not, as in many instances, do more harm than good. From the standpoint of health, there are many factors which should influence the final decision in choosing the place for a holiday.

Of these factors none are quite so important as the water and milk supplies, particularly if children are in the group. Other factors which should interest the holiday makers if the holiday is to be spent in one's cottage or camp are the disposal of night soil and garbage.

Most people regard sparkling water from a stream, the old fashioned well and wayside springs to be the sources of pure water. Very often they are just the opposite. Water, like individuals, corresponds to the company it keeps. If brooks, springs and wells are exposed to the contamination of persons it is very often dangerous. Wells without a sealed top or whose walls are constructed of loose stones will readily admit surface contamination. Water supply of small towns and villages cannot always be trusted to be pure. For every summer householder a sure safeguard remains, namely to boil the water used for drinking purposes. Boiled water tastes flat, because it has been deprived of oxygen. This condition may be remedied by transferring the water from one pitcher to another a few times.

Harmful germs such as those causing typhoid fever and tuberculosis and others, can live and multiply in milk. The hot weather of summer makes it difficult to keep milk fresh. No milk is safe unless it has first been boiled or pasteurized. Out-houses should be fly-proof and garbage should be enclosed in fly-proof cans or burned. Make the holiday safe for your health!

**Cerosan Treated Wheat
Washed For Feed**

Cerosan is an Ethel Mercury
Phosphate,

Grain treated with Cerosan
may retain its poisonous prop-
erties for a considerable time,

Grain treated with Cerosan
can be made fit for feed by
washing it thoroughly with
water. It is however always
better to mix grain that has
once been treated and washed
with other grain for fear that
some of the poison may not
have been removed.

In regard to the length of
time grain treated with Cerosan
can stand over without deterior-
ation, we may say that we have
no definite information on this.
If one half ounce per bushel is
used, there is very little likeli-
hood of damage occurring
within three or four months.
Some companies have reported
that no damage occurs within
one year.

**BUY
WAR SAVINGS
CERTIFICATES**

It is the saving habit that
counts. For many of us that
will involve saving to buy an-
other War Saving Stamp when
we would in other times have
bought some other little thing
we didn't need. Not just to day
but every day and for long
time It looks like a long pull
and a strong pull. Steady buy-
ing of stamps, as you are able,
and as many as you are able, is
your way of keeping your heels
dug in for a strong pull, for your
self and Canada.

For those who must buy
stamps before exchanging them
for a certificate, the plan is
simple. Stamps are on sale in
stores and other places, as well
as post offices and banks. As
you buy them stick the stamps
into the folder with its sixteen
spaces for stamps. When you
have all sixteen stamp spaces
filled, make out the application
plainly and completely.

Crop Conditions Hail in Some Districts

A good rain fell on Champion and surrounding districts on Sunday and Wednesday afternoons brightening the already shining crop prospects.

Hail has been reported in the following districts; South and West of Vulcan, near Bow Valley School, Peacock Siding, Nanton and near High River.

The extent of this damage is as yet unknown; but it is presumed that, locally at least it is quite light with no serious damage done.
